New and improved products and services

Glidepoint Ultra

This cryothermal tool allows you to perform a variety of massages with minimal effort. Weighing 2.5 pounds, the well-balanced stainless-steel tool has one rounded and one pointed end, which can be used for either hot or cold therapy. You can purchase extra heads if you prefer to keep one set cold and one set hot at all times, or have one end hot and one end cold. Also available is an auto warmer that will keep the detachable heads warm and ready to use at any time. The insulated, soft-grip handle protects your hands from the varying temperatures of the detachable heads. Contact Kelly Kinetics at (888) 645-3559 or www.kellykinetics.com.

Healthy Body Ball

This knobby purple ball is just under 4 inches in diameter, with 10 thumb-size, flexible nubbins protruding from the surface. It looks like a baby toy, but can save your hands during trigger-point therapy. The nubbins simulate the pressure and consistency of a massage therapist's thumbs in the application of trigger-point therapy. When the ball is positioned appropriately, body weight against the nubbins supplies enough pressure to allow the release of pain. Contact Healthy Body Ball at (800) 455-4346 or www.healthybodyball.com.

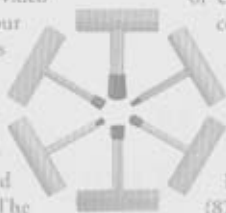

FitBALL Roller

OPTP introduces the versatile, inflatable exercise roll called the FitBALL Roller. It combines the best aspects of inflatable exercise balls and foam rollers into one dynamic fitness roll. The FitBALL Roller allows you to optimize exercises that strengthen and tone the abs, obliques and core muscle groups. Sized for exercise effectiveness (approx. 30" x 7" diameter when inflated), the FitBALL Roller is constructed of durable, burst-resistant vinyl that will support up to 440 lbs. It comes with an illustrated poster featuring eight exercises and usage guide. Contact OPTP at (888) 819-0121 or www.optp.com.

NMT Bar and Video

Neuromuscular Solutions' innovative NMT Bar and training video allow you to address your clients' chronic pain, stress and injury without compromising your own body. These hand-held tools allow the therapist to apply a multitude of advanced massage techniques. The NMT Bar acts as an extension of the therapist's hand, enabling the treatment of trigger points and elimination of chronic pain with ease. The comprehensive 45-minute video will teach you the skills to save your hands, lengthen your career and help eliminate chronic pain in your clients. Contact Neuromuscular Solutions at (877) 393-7834, or if you're in Colorado, call (303) 996-0625; or www.neuromuscularsolutions.com.

A MESSAGE Magazine Innovation is either a new product, an innovation in design, original and significant improvement or advancement of an existing product or service, introduced or patented within the past year. Companies with innovations should submit photos, specifications, descriptions and promotional literature in order to be considered for the Innovations page in MESSAGE Magazine. By submitting this material, companies consent to allowing MESSAGE Magazine to contact and publish from the material provided. A submission for the Innovations page does not guarantee publication.
